

**CYBERSECURITY  
SUMMIT**

 PRESENTED BY  

**Immedion**
**May 16, 2019 | Greenville, SC**

## Agenda

- 8:15 – 9:00 a.m.      Registration
- 9:00 a.m.            **Welcome & Opening Remarks**  
 Ted Pitts, President & CEO, South Carolina Chamber of Commerce  
 Ravi Sastry, VP of Sales & Marketing, Immedion  
 Dr. Tom Clark, Fort Gordon Cyber District
- 9:30 – 10:00 a.m.    **The Chinese Government Plan for Technology Acquisition**  
 Doug Hemminghaus (Assistant Special Agent in Charge, National Security Branch, Federal Bureau of Investigation)
- 10:00 – 10:30 a.m.    **CyberSC Annual Awards of Excellence Presentation**
- 10:30 – 11:00 a.m.    Networking Break
- 11:00 – 11:30 a.m.    **Anatomy of a Cyber Attack and How to Close the Cybersecurity Gap**  
 Brad Alexander (Vice President and Chief Technology Officer, Immedion)  
*Cyber-attacks are becoming more frequent and more sophisticated, but what actually happens during an attack? How does a server become compromised? How quickly does a virus spread? How can you detect whether your systems have been compromised? Most importantly, how can you protect your business and respond effectively should the worst occur?*
- 11:30 – 12:15 p.m.    **Panel: “Cyber for SMBs”**  
**Moderator: Douglas Kim (Founding Partner, Kim & Lahey Law Firm, LLC)**  
 Lonnie Emard (National Director of IT and Cyber Apprenticeship, AACSC)  
 Joshua Franklin (Senior Cybersecurity Engineer, Center for Internet Security)  
 Steven Peterson (Security Analyst, Layer 3 Communications)  
 Robert Smith (Director of Security Services, EDTS Cyber)
- Small doesn't necessarily mean secure. More and more, small and midsize businesses are targeted for cyberattacks because they typically lack the resources to adequately defend themselves. Cybersecurity is no longer an IT problem; it's an organizational problem. Solutions are often both challenging and expensive and exceed the budgets of smaller organizations. So how do businesses find a balance between cost and security? What resources exist for businesses to enhance cybersecurity? This panel will provide an overview of*

*existing frameworks and advice on finding affordable solutions to cybersecurity challenges.*

- 12:15 – 1:15 p.m.      **Networking Luncheon in Exhibit Hall**
- 1:15 – 2:00 p.m.      **Panel: “Managing Cyber Risk”**  
**Moderator: Kurtis Suhs (Founder & Managing Director, Cyber Special Ops, LLC)**  
J.R. Crocker (Cyber Security Defense – Trust & Safety Advisor; Global Information Security, Bank of America)  
Kyle King (Engineering Manager for the Carolinas, Check Point Software Technologies)  
Lee Palms (Greenville Office Leader, KeenanSuggs | HUB International)  
Klint Walker (Region IV Cyber Security Advisor, Department of Homeland Security)
- 2:00 – 2:30 p.m.      **Winning the Cyber War**  
Rob Cheng (Chief Executive Officer, PC Matic)  
*Cybercrime is accelerating in complexity, and criminals are taking full advantage of holes that exist in cybersecurity networks at a federal, state, and local level. This presentation will outline how South Carolina can lead the charge on protecting ourselves against these vicious attacks and remain on the cutting edge of technology as attacks become more and more advanced.*
- 2:30 – 2:45 p.m.      Networking Break
- 2:45 – 3:30 p.m.      **Ransomware Table Top Exercise**  
**Isaiah Jensen (Vice President Cyber Risk, Kroll)**  
**Jeff Macko (Senior Director Cyber Risk, Kroll)**  
*Kroll experts will step through a security incident response scenario involving ransomware. This interactive mini table-top exercise will focus on the procedures organizations must take to minimize the damage from an incident and return to normal business operations. Proactive best practices for prevention, detection and containment will be discussed throughout the exercise.*
- 3:30 p.m.              Adjourn
