AND CAPITAL  
INTERSECT

# THE SUMMIT

On Information Technology

IT-oLogy®

**The Summit on IT 2015** will focus on the state of Information Technology in South Carolina and how it impacts industry, education, policy and capital. **IT** today not only enables businesses and organizations of all types in our state but it has become a major driver of the overall economy. If we as a state are to remain competitive moving forward we must understand these issues and take the steps necessary take a leading role on a national level.

The conference will feature **IT** leaders from across all industry verticals in South Carolina, including CIO's, CTO's, CEO's, economic developers, state and municipal officials, elected officials at every level of government, venture capitalists, and educators.

Content will focus on SC compared to other states in key strategic areas, what's being done in each geographic location in the state, the state of industry verticals and how they're being impacted by **IT**, and the state of horizontal issues such as education, talent and workforce development, capital, security, and economic development.

In 2014, the first year the conference was held, more than 300 thought leaders from throughout SC attended and participated, including Governor Nikki Haley. World-class partners like the South Carolina Department of Commerce and the South Carolina Chamber of Commerce worked with **IT-oLogy** to make the event a huge success! We invite you to join us!

**ATTENDANCE: MORE THAN 300 THOUGHT LEADERS FROM ALL OVER SC ATTENDED IN 2014. MORE THAN 500 ARE EXPECTED IN 2015.**

**TARGET AUDIENCE: CIO'S, CTO'S, CEO'S, ECONOMIC DEVELOPERS, STATE AND MUNICIPAL OFFICIALS, ELECTED OFFICIALS AT EVERY LEVEL OF GOVERNMENT, VENTURE CAPITALISTS, AND EDUCATORS AND EDUCATION ADMINISTRATORS AT EVERY LEVEL.**
